

Heinzig Metalltechnik GmbH, Auf der Welle 1-3, 32369 Rahden

## REACH - Declaration

The company Heinzig Metalltechnik GmbH is a manufacturer of metal products within the meaning of REACH a so-called "downstream user". We only do not produce chemical products (products). In addition, from the generated products we under normal and reasonably foreseeable conditions of use no substance will be released. Thus we are as a company Heinzig Metalltechnik GmbH basically neither to registration nor the obligation to produce safety data sheets.

In addition, we will immediately under REACH - inform Article 33, if the ingredients of our products are classified (from a level of > 0.1%) of the European Chemicals Agency (ECHA) as particularly worrying. As things stand, however, we do not assume that this will arrive.

Regardless, we are pursuing in their own interests and to ensure a high product safety for our customers intensively the implementation of REACH on page of our suppliers. We are in close contact with our suppliers of chemical substances and preparations as Raw materials and supplies for the manufacture, treatment - and processing of our products or use in other operative processes and embed the pre-registration and subsequent registration of the relevant substances in REACH in our supplier qualification.
